CLASSIFICATION	Public
TYPE	Statement

Protecting our clients' information is fundamental to everything we do. As a trusted litigation support provider, Legastat maintains robust information security, data protection and business continuity controls to safeguard confidential information throughout its lifecycle.

Our Commitments

- ISO 27001 Certified Information Security Management System
- Cyber Essentials Plus Certified
- UK GDPR Compliant
- Information Commissioner's Office (ICO) Registered
- Documented Information Security Policies and Procedures
- Staff Security Awareness Training
- Secure Client Data Handling Processes
- Business Continuity and Disaster Recovery Procedures
- Controlled Access to Client Information
- Secure Information Retention and Disposal Processes

Data Protection

Legastat processes personal data in accordance with UK GDPR and the Data Protection Act 2018. We maintain appropriate technical and organisational measures to protect personal information and support our clients' own compliance obligations.

Information Security

Our Information Security Management System is designed to identify, manage and mitigate information security risks whilst ensuring the confidentiality, integrity and availability of client information.

Business Continuity

We maintain documented business continuity and disaster recovery arrangements to support service resilience and minimise disruption.
